# **1 Introduction**

Students take a time off during weekend time to have what to do such as, fellowshiping, doing tests and personal revision. This done because some have been having lectures since morning like 8:00 am. during weekend in Makerere is a sort of rush hour where you can just make an appointment to meet some students anyhow. It like someone has got a commitment to some activity. Surprisingly not everyone is going to have something to do, but there are quite numerous activities that occur during the weekend. This is why I came up with the research study regarding the various activities done by various students during the weekend. s

## **2 Problem statement**

There is a lot of data that is not catered for regarding weekend activities of various students at Makerere university. This data has not been processed and analyzed into meaningful information that can help the university in the proper planning of its students on how well they can spend their weekends

## **3 Objectives of the research study**

### **3.1 General Objectives**

To collect data on activities done by makerere university students over the weekend.

### **3.2 specific Objectives**

- To find out how students spend their weekend time
- To collect data on activities from different students To analyze and process data

## **4 Scope of study**

The research was carried out on Makerere university students during weekend at main campus

## **5 Methodology**

Electronic Questionnaire A questionnaire was roughly designed on paper then transferred to the app-engine online The electronic questionnaire or data collection was built using open data kit online and was uploaded online to the app-engine services For ODK app on the smart phones helped to carry the forms with easy because data was recorded and stored there and then.

## **6 Conclusion**

The data was collected from various people though resistance was meant Students refused to take picture involving various places and activities being done. It was noted that during lunch time, it is not only time to find out what to eat but also to do a bunch of ideas.
